Shade and Sequential Marking Systems

Checkpoint/Meto's sequential labelers assure high quality and flexibility for shade marking and other consecutive numbering applications. Most commonly used by apparel manufacturers, these systems provide a quick and easy means of identifying cut, size, and ply number information on cut work fabric bundles. These labelers are engineered and built to endure rugged environments with minimal mechanical breakdown. Manual or Air powered versions are available with custom print band layouts that may be tailored to fit that special customer need.

- Available with consecutive number or repeat consecutive number functions
- Air powered versions also available two maximize efficiency and reduce operator fatigue
- Assures high quality and flexibility
- Provides quick and easy applications

Primark® PS-18

Features

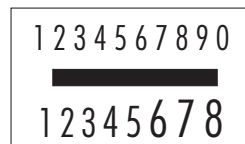

- **Sturdy Tool Construction** – ensures years of productivity with minimum breakdown
- **Large, Easy-To-Read Counting Numbers** – speed shade marking
- **Sealed Label Compartment** – reduces fabric dust contamination
- **Additional Stock Printbands** – customize tools to fit your special requirements
- **Wide Range of Adhesives** – for natural fibers, blends, synthetics and pressable fabrics
- **Color Bar Labels** – available in red, green, blue, yellow and brown
- **18 Digit Capacity** – 10 digits upper line and 8 digits lower line
